**PLEASE REVIEW THIS GUIDE BEFORE COMPLETING APPLICATION ON FOLLOWING PAGES**

**City of Kennedale  
Permit Application Guide**

1. Visit **cityofkennedale.com/permitapplications** to download applications.
2. Review the list of requirements at the top of the application. Gather all required documents and plans to include with your application.  
*Tip: Nearly every application requires a registered contractor. It is best to take care of registration BEFORE submitting your permit application.*
3. Fill out the application completely. Please ensure no required items are left blank or missing.
4. Email completed application and all required plans and documents to [permits@cityofkennedale.com](mailto:permits@cityofkennedale.com).  
*Tip: Send these documents all together in one email to help ensure no documents or plans are missed which may delay your plan review.*
5. The applicant will receive instructions on completing payment via email. Once payment is completed, plan review will begin the following full business day.
6. The applicant will receive plan review comments and any follow-up from staff via email. Any subsequent plan review will begin the full business day following receipt of revisions.
7. Approved plans and permit will be emailed to applicant and general contractor. You may begin work as soon as you receive these items. Be sure to have your permit and approved plans available on site during all construction and inspections.
8. When ready for inspections, visit **cityofkennedale.com/InspectionRequest** and fill out the form. Next business day inspections are currently only available if requested before noon the prior business day.

<b>Plan Review Turnaround Times</b>		
<b>Project Type</b>	<b>First Plan Review</b>	<b>Subsequent Reviews</b>
Small Residential Projects*	5 business days	5 business days
Residential Projects	10 business days	5 business days

Engineering Review**	20 business days	10 business days
Day 1 = First full business day after receipt of plans and all supporting documents		
*Includes single-lot fences, simple accessory structures under 300sf (no MEP work)		
**Engineering Review required in clearing, grading, tree removal, large commercial, retaining walls 4ft+, multifamily		

## City of Kennedale Site Plan Guide

Site plans display a top-down aerial view of a property and are used to show the placement of existing and proposed structures, fences, pools, etc. A site plan is required for most permit applications because staff must ensure your project can safely, legally be placed where you plan to build it. If you have never created a site plan before, follow this guide to make your own.

1. Obtain a copy of your survey. If you do not have a survey, you can either take a screenshot of your property using Google Maps Satellite view or you can hand draw a site plan to scale.
2. Draw the boundaries of the entire property (please be sure to outline the property if you are using a Google Maps screenshot). Label the dimensions of the property lines.
3. Draw and label all existing and proposed structures (house, sheds, pools, etc). Label dimensions on all existing and proposed structures. (For fences, use a red line with Xs: **x-x-x-x-x**)
4. Label the setbacks (distance from property lines and any surrounding structures) of the proposed structure.
5. Label adjacent streets and any easements. Add a compass to indicate direction.

Above site plan is an example only and should NOT be used as a site plan for your project. Circles represent measurements that must be labeled on a site plan.
