# FREE CAT SPAY & NEUTER CLINIC

FERAL • COMMUNITY • PETS • STRAYS

This free clinic offers spay or neuter service to feral, stray, and personally-owned cats of Kennedale residents only. You must provide a valid driver's license showing your current Kennedale address. **Cats must be brought in a kennel/cage.** Check-in begins at 8:00 a.m., and pick-up at 3:00 p.m.

Traps will also be set in areas with high populations of feral cats so they can be trapped, neutered, and returned.

## WHAT IS TRAP-NEUTER-RETURN (TNR)?

This program aims to improve the health of feral cats while keeping populations in check through sterilization. You may have seen cats with an ear that is notched or tipped. After a feral cat has been neutered (or spayed), their left ear is often altered for future identification as a cat that has already been treated.

# THURSDAY, FEBRUARY 7

KENNEDALE CITY HALL | 405 MUNICIPAL DRIVE
